The perfect dynamic LED display for your communication!

Discover the JumboCube, a display designed by Nummax to communicate your content in real time over 360°, to a large audience in your events or in a high traffic location.

Whether to display your sports results, your advertising messages or to broadcast your live videos, the image with bright and uniform colors offers the best definition in this category of high-brightness displays.

This four-sided dynamic display is a turnkey solution that requires no additional structure and can be hung directly onto your building frame. Thanks to its uniform surface, its design with thin cabinets, its included **fastening** system and its simplified installation, the JumboCube will integrate harmoniously your building's architecture.

- High definition image
- Low power consumption
- High brightness LEDs
- Simplified installation
- Ultra thin cabinets
- Lightweight
