LED Dynamic Display Enhancing Your Sport!

Our custom LED digital scoreboard offers exceptional flexibility for content broadcasting, whether it's media, scoring, or live videos. This versatility allows for a personalized spectator experience, providing significant advantages for your sporting events.

With software customization options, the screen can be tailored to various sports such as baseball, football, soccer, hockey, swimming, and basketball. Vibrant colors and high brightness ensure optimal visibility, along with pixel pitch choices for resolution.

Custom dimensions make this screen perfectly suited for sports facilities, from arenas to sports complexes, including pools, gyms, and stadiums.

Moreover, its user-friendly interface highlights accessibility for all users.

In summary, the custom LED digital scoreboard propels sports complexes into the era of dynamic displays, enhancing the overall experience and maximizing visual impact.

- High brightness LED
- Easy installation
- Thin cabinets
- User-friendly
- High-definition image
- Low power consumption
- Lightweight
