

DOUBLE-SIDED LED STREET BANNERS

PROVIDE REAL-TIME COMMUNICATION TO CITIZENS

Communicate in real time with citizens regarding the following important information and events:

- Your city's activity program and events
- Information on roadwork, including planned road closures or emergency closings
- General roadside information and instructions
- Safety information, such as boil water advisories, weather alerts, etc.

Messages to be broadcasted can be programmed, changed in real time, and managed remotely thanks to our Nummax Manager Software. Our signs can display rich multimedia content that is sure to capture citizens' attention.

Digital parking signs are the wave of the future. Take advantage of Nummax's turnkey solution. Our team of experienced and professional experts, high-performance technology, and reliable products guarantee the highest quality and customer service. Only with Nummax!
