

DIGITAL NO PARKING SIGN

PROVIDE REAL-TIME COMMUNICATION TO CITIZENS

Communicate with citizens in real time and provide timely parking information in specific zones or indicate when no parking is permitted in certain areas, depending on the time of day, seasons, planned roadwork, or unexpected situations. With digital parking signage, gone are the days where streetlights are loaded with signs. Also, gone are the days where you have to manage temporary signs.

Messages to be broadcasted can be programmed, changed in real time, and managed remotely thanks to our Nummax Manager Software. Our signs can display rich multimedia content that is sure to capture citizens' attention.

Digital parking signs are the wave of the future. Take advantage of Nummax's turnkey solution. Our team of experienced and professional experts, high-performance technology, and reliable products guarantee the highest quality and customer service. Only with Nummax!
